JFCOM "LITTLE C" UPDATE

JI&E ENTERPRISE CONFERENCE
9-12 Jan 2007

Col Kelly Mayes
Chief
Campaign Design
USJFCOM, J9

Why We Do It

JFCOM Transformational Objectives

1. Enable Achievement of Unified Action
2. Integrate Operations with Intelligence
3. Enhance Joint Command and Control
4. Improve Joint Force Deployment and Sustainment
5. Develop Joint Concepts
6. Enable Strategic Communications
7. Develop & Support JI&E Community Processes

How We Do It

Dimensions of Transformation

- Organizational Design
- Capabilities
- Processes
- Authorities
- Concepts
- Cultures

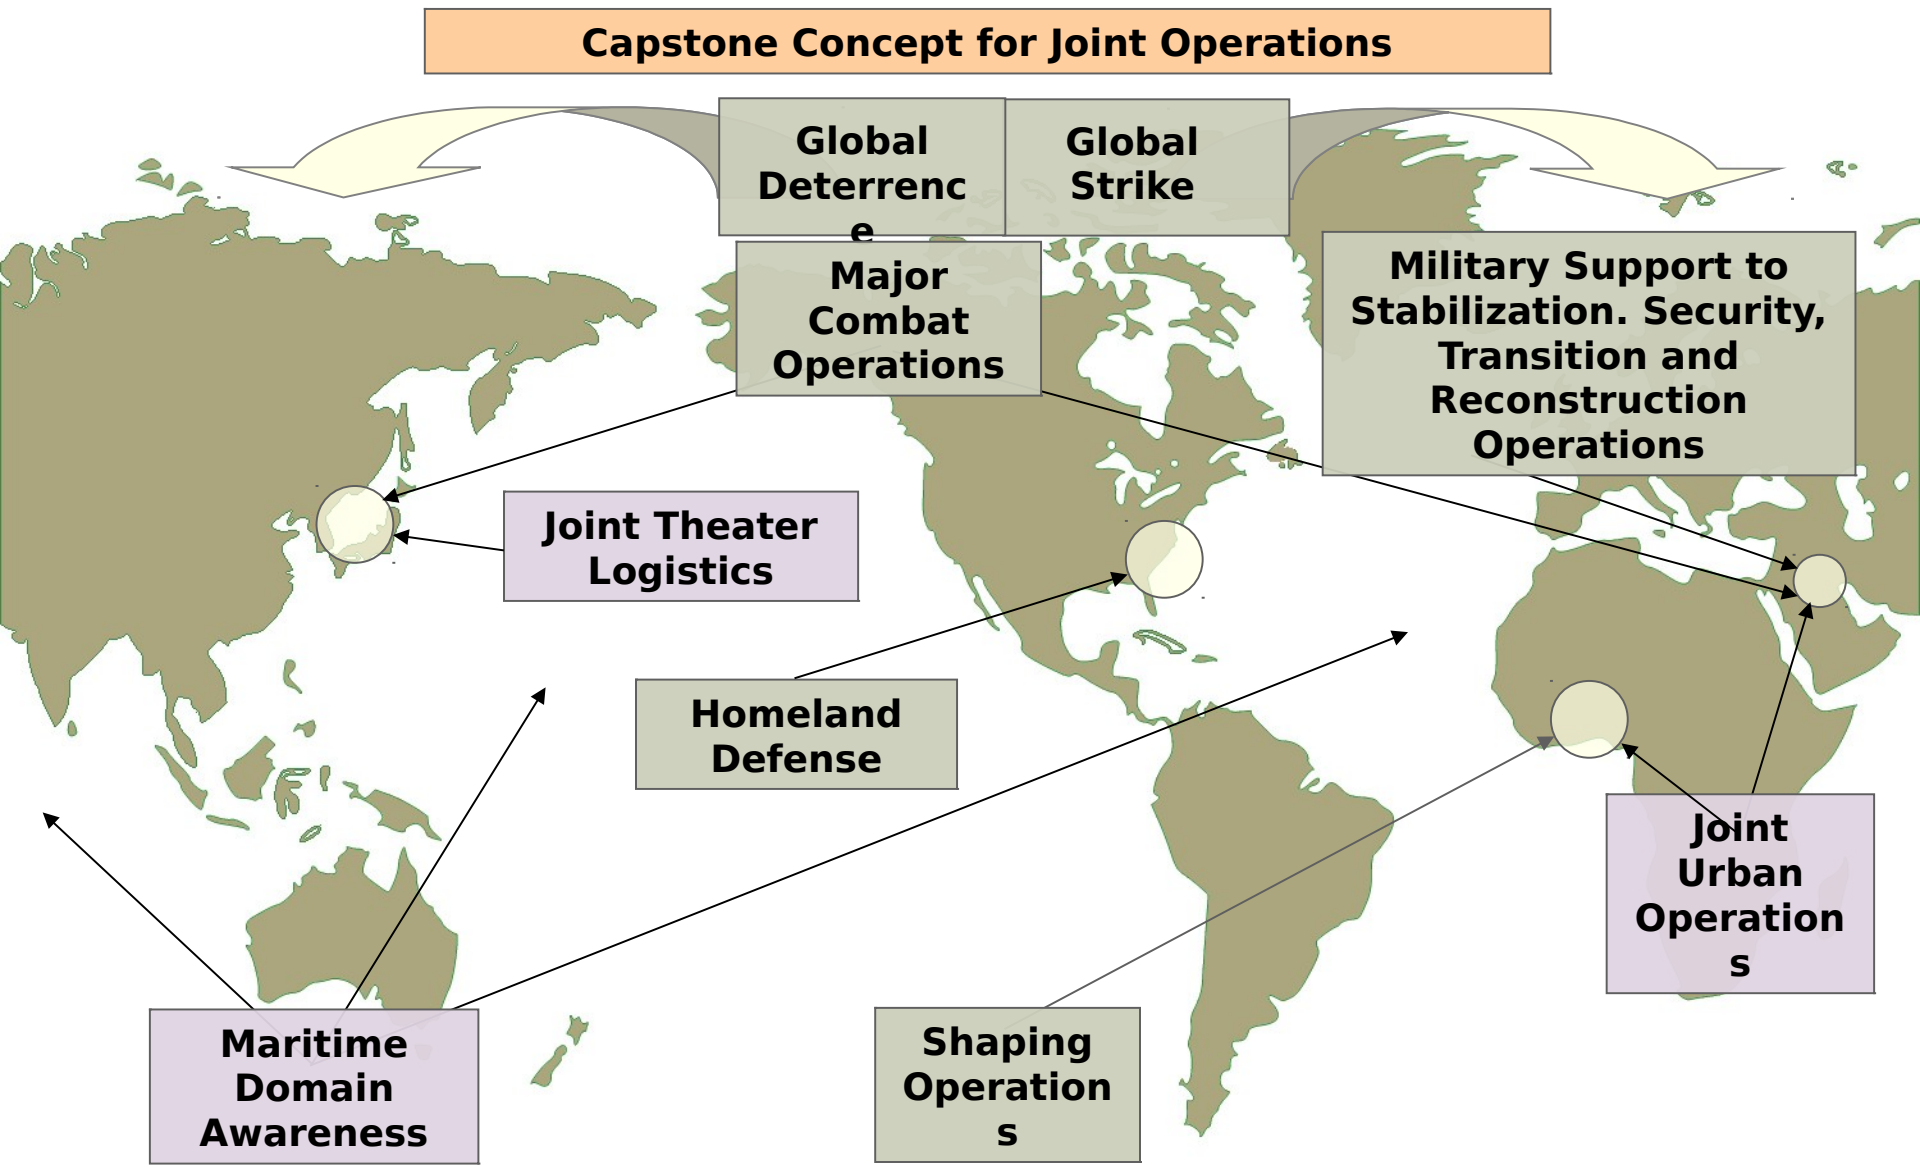
J9 Business Lines

- **Joint Concepts** (ways of operating)
- **Joint Capabilities** (means of operating)
- **Integrating Environment** for transformation activities

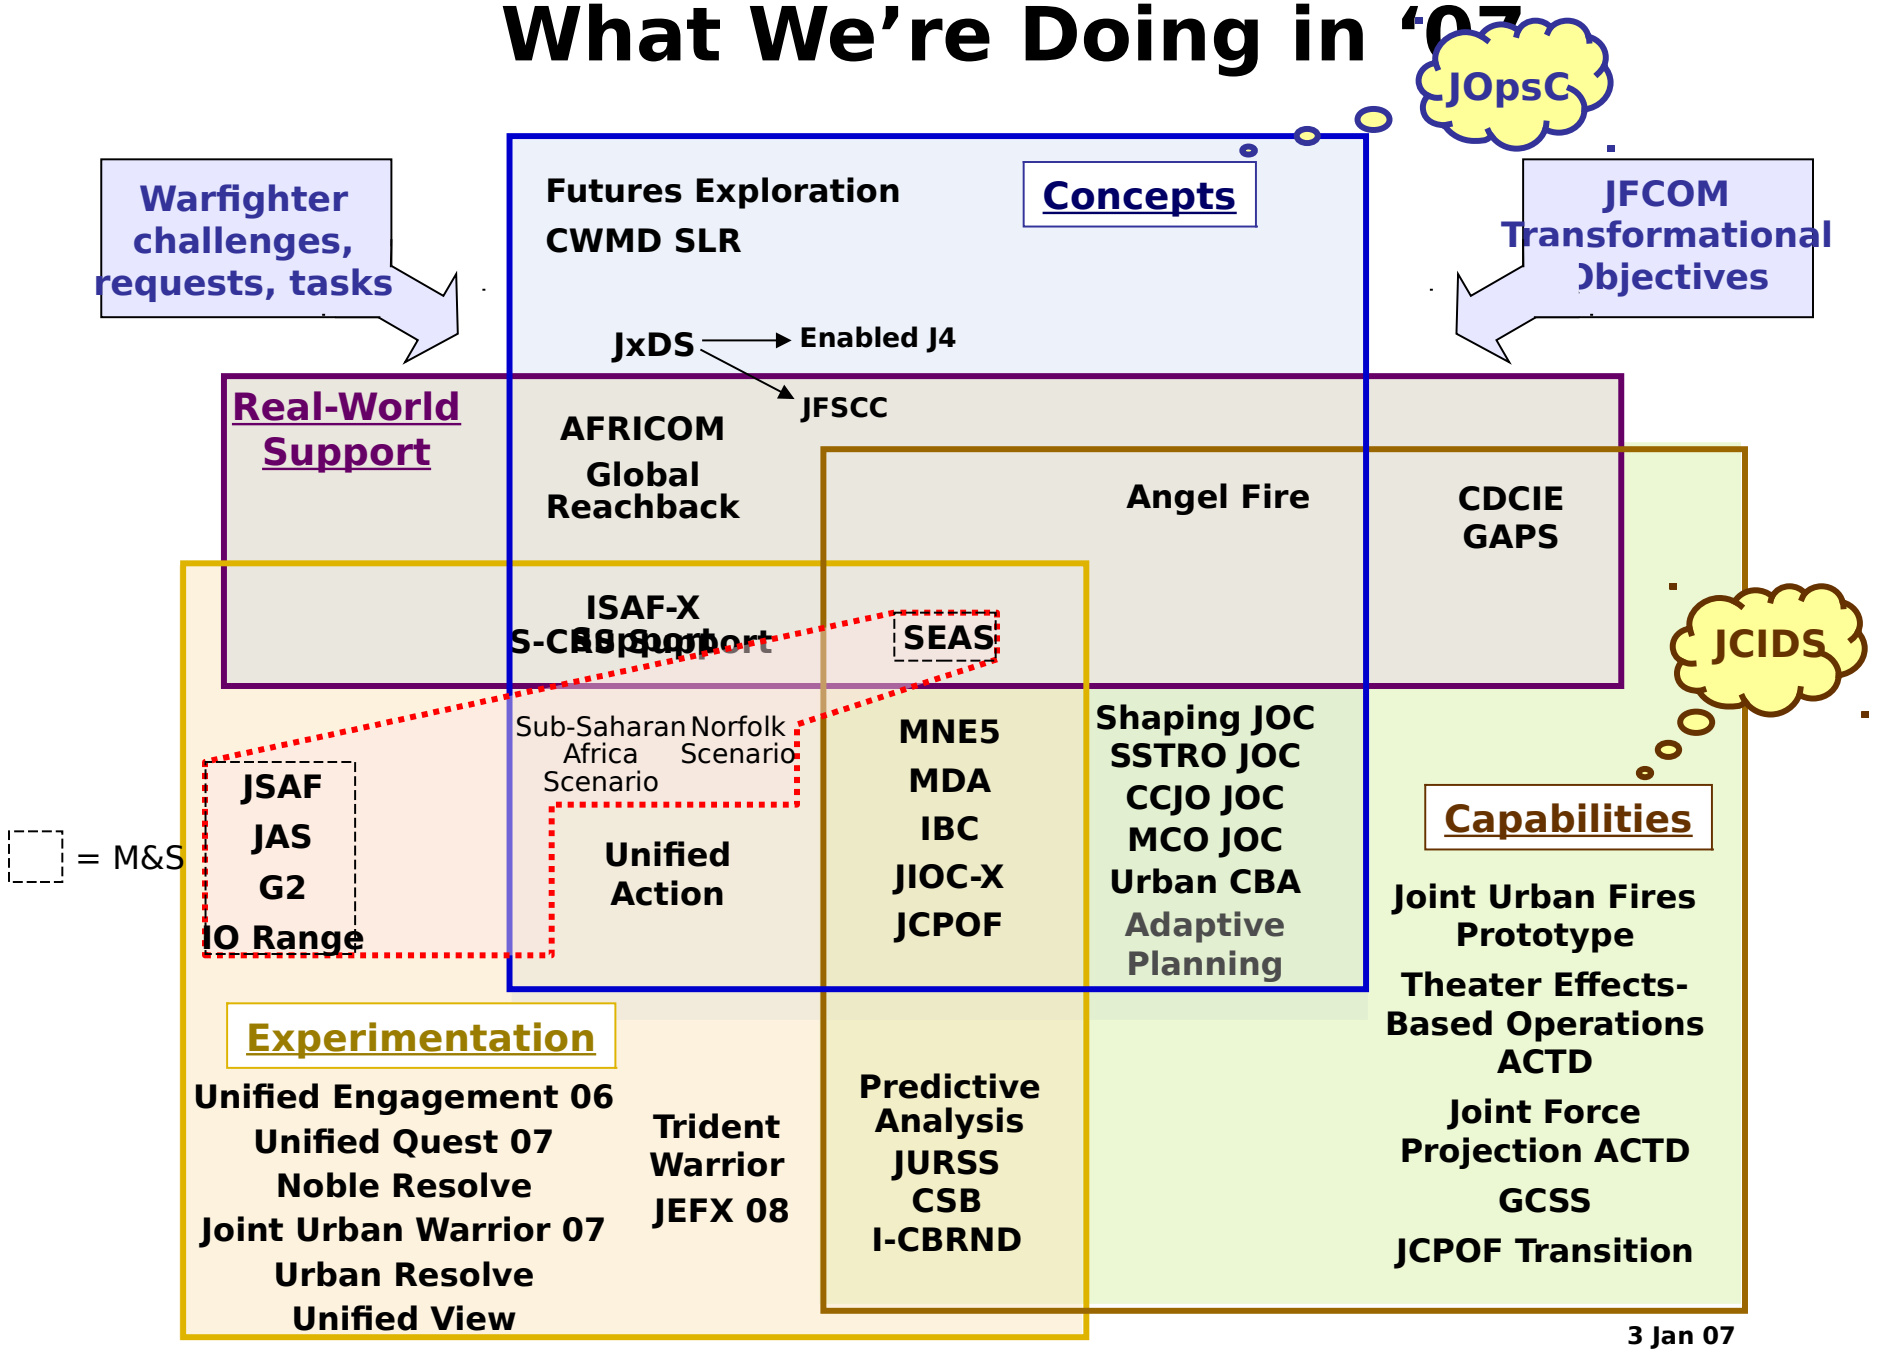
JFCOM J9 organization:

- Deployment & Logistics Unit
- Future s Unit
- Innovation Unit
- Experimentation Unit

Develop Joint Concepts



What We're Doing in '07



3 Jan 07

Enable Achievement of Unified Action

Unified Action Series

Objective: Test the structures, processes, and capabilities necessary to improve USG whole-of-government capacity to plan for and execute integrated conflict and crisis prevention, mitigation or response operations

Noble Resolve Series

Objective: Investigate and identify capability gaps, develop recommendations, DOTMLPF proposals and new tactics, techniques and procedures to measurably improve the COCOMs and homeland security partners' mission effectiveness

Multinational Experiment 5

Objective: Investigate and develop and agreed method by which multinational Partners can plan, execute and assess a comprehensive approach to crisis prevention and response

Integrate Operations with Intelligence

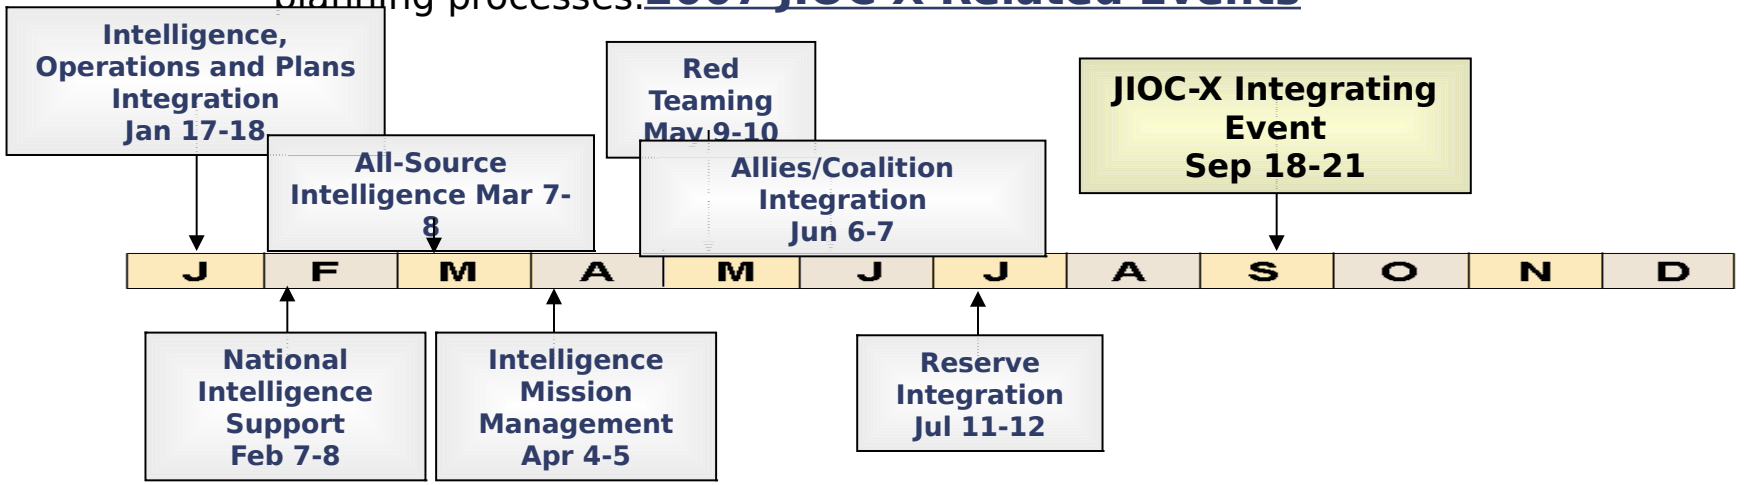
Joint Intelligence Operations Center - Transformation (JIOC-X)

The JIOC-X is an entity created to address, develop, experiment with and deliver joint operational intelligence solutions to increase the combat effectiveness of Combatant Commanders and other related DoD activities

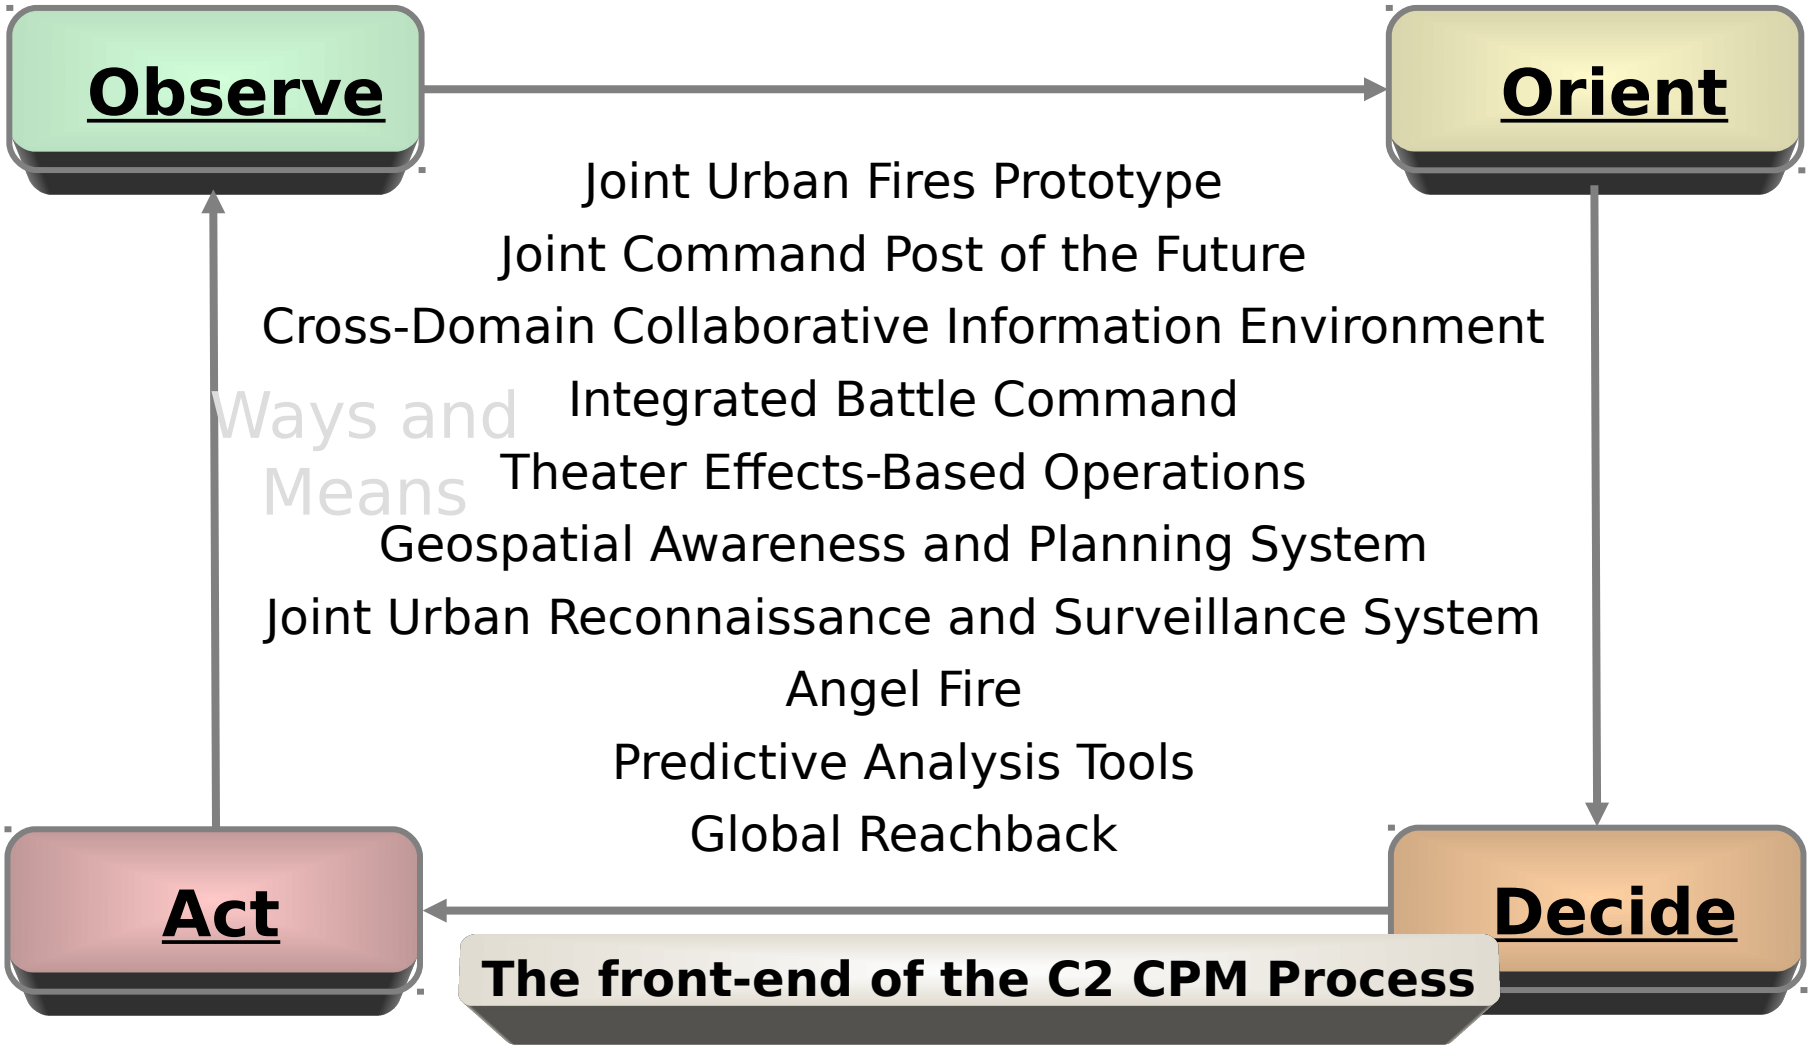
Focus Areas:

- Improving joint intelligence, operations, and plans integration and interoperability;
- Expanding information access and sharing;
- Improving situational awareness;
- Increasing the speed/agility of operations; and,
- Incorporating Intelligence Campaign Planning into emerging operational planning processes.

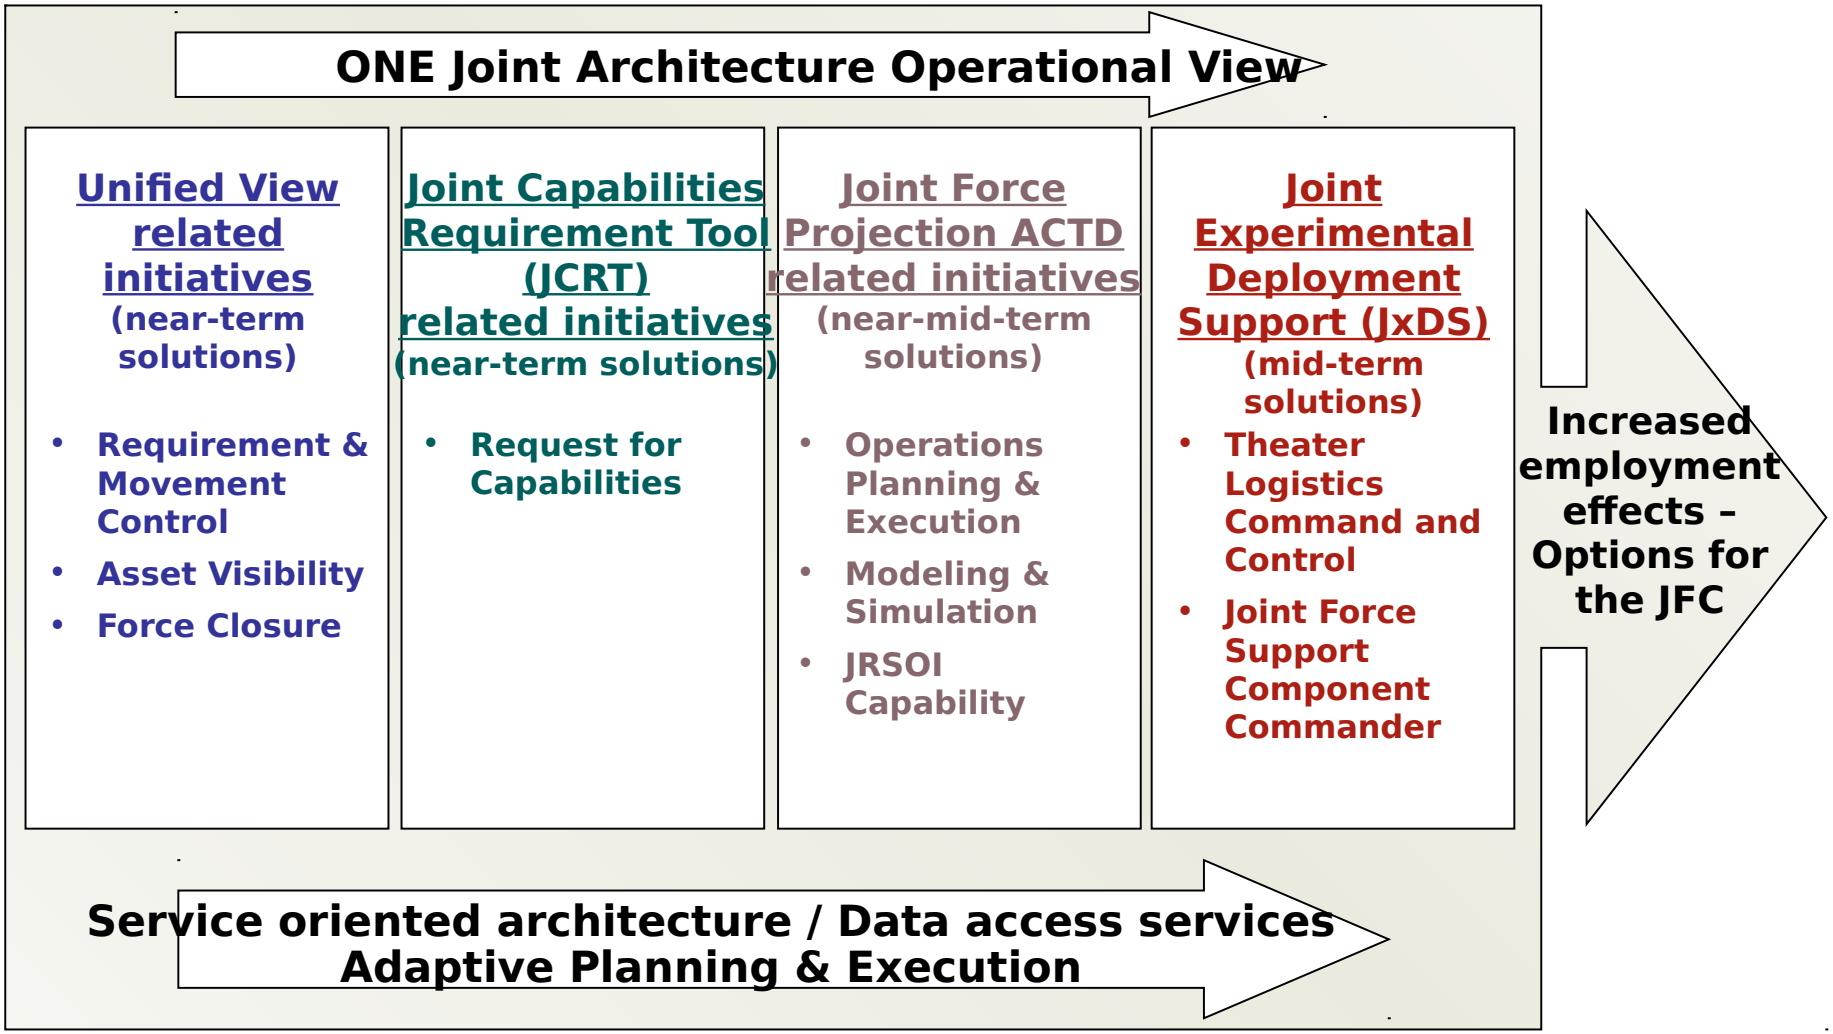
2007 JIOC-X Related Events



Enhance Joint Command and Control



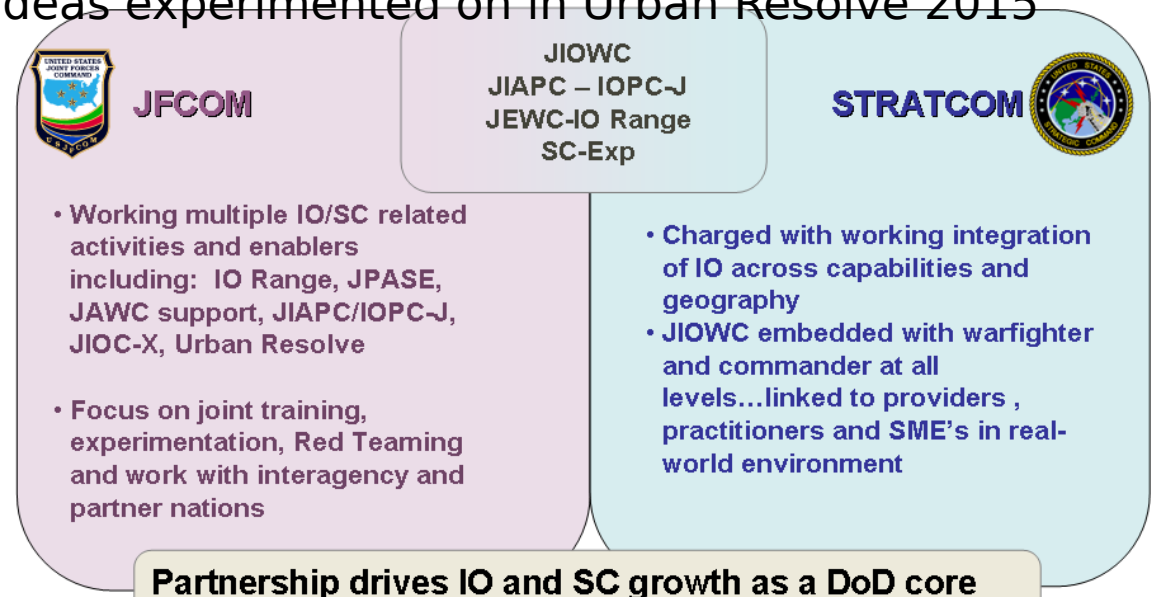
Improve Joint Force Deployment and Sustainment



ONE Joint Architecture Operational View
Unified View related initiatives
(near-term solutions)
• Requirement & Movement Control
• Asset Visibility
• Force Closure
Joint Capabilities Requirement Tool (JCRT) related initiatives
(near-term solutions)
• Request for Capabilities
Joint Force Projection ACTD related initiatives
(near-mid-term solutions)
• Operations Planning & Execution
• Modeling & Simulation
• JRSOI Capability
Joint Experimental Deployment Support (JxDS)
(mid-term solutions)
• Theater Logistics Command and Control
• Joint Force Support Component Commander
Increased employment effects – Options for the JFC
Service oriented architecture / Data access services
Adaptive Planning & Execution

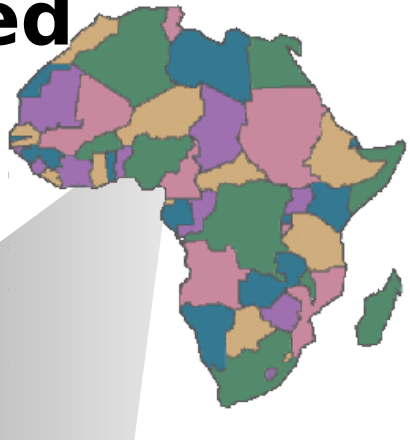
Enable Strategic Communications

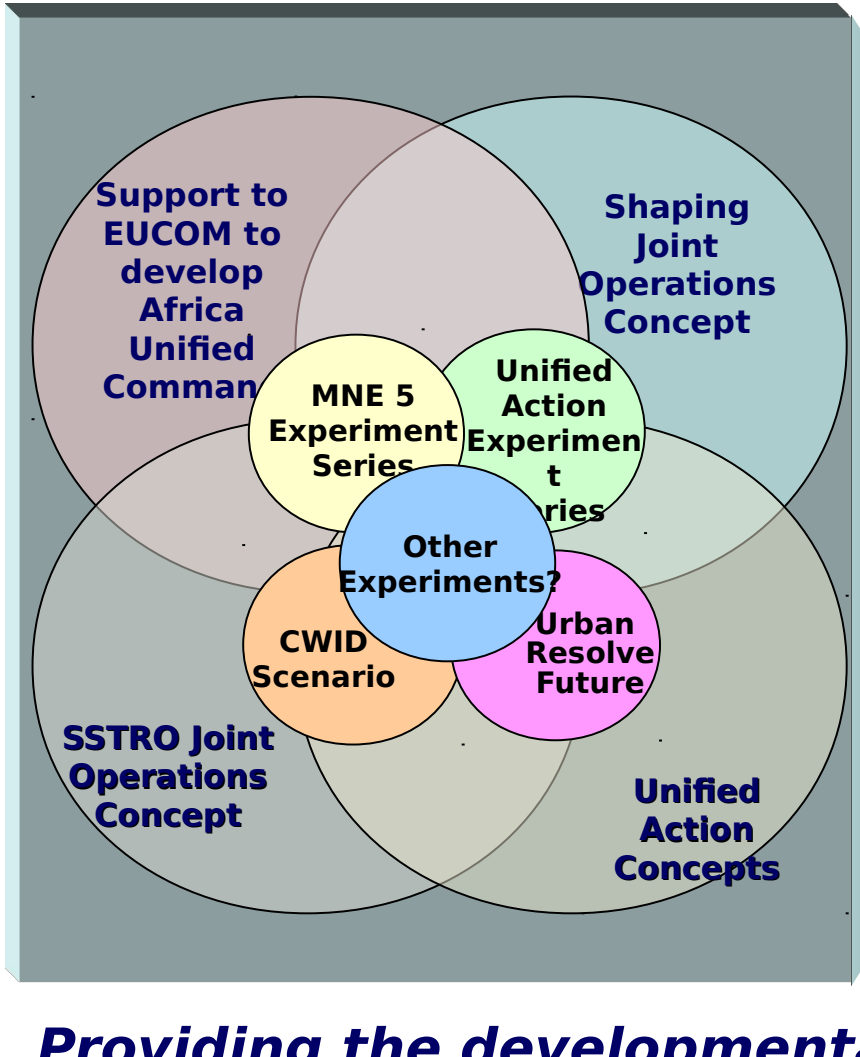
- Actions taken to achieve effects in the perception and influence domains, including:
  - Traditional Information Operations pillars
  - Media operations
  - Physical actions to create information effects
  - Strategic Messaging
  - Public diplomacy
- Partnership with STRATCOM:
  - Direct support to Joint Information Operations Warfare Command
  - Initial ideas experimented on in Urban Resolve 2015



JFCOM
JIOWC
JIAPC – IOPC-J
JEWC-IO Range
SC-Exp
STRATCOM
• Working multiple IO/SC related activities and enablers including: IO Range, JPASE, JAWC support, JIAPC/IOPC-J, JIOC-X, Urban Resolve
• Focus on joint training, experimentation, Red Teaming and work with interagency and partner nations
• Charged with working integration of IO across capabilities and geography
• JIOWC embedded with warfighter and commander at all levels…linked to providers , practitioners and SME's in real-world environment
Partnership drives IO and SC growth as a DoD core competency and directly supports warfighter needs

Linking Joint Concepts and Unified Action Through Experimentation





Partners

- DOS
  - PM
  - AF
  - CRS
- USAID
- Other IA
- NGOs
- EUCOM

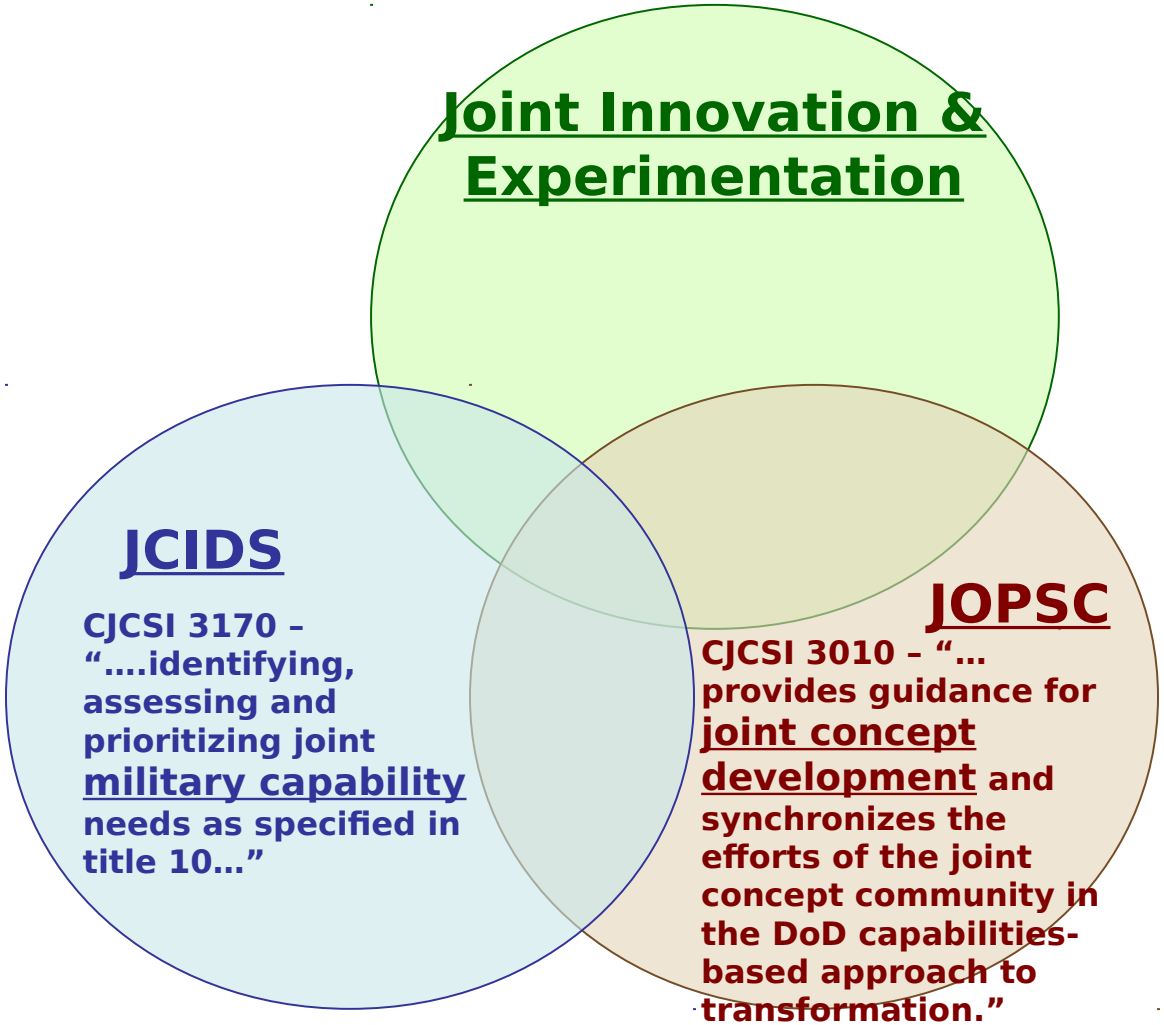
- Less costly to develop a single scenario
- No investment for players to learn a fictitious scenario
- Raise awareness of Africa and inform potential future operations

Providing the developmental framework for Unified Action . .

. . . While gaining key insight into areas we may operate in

“Unique joint solutions to the problems our customers are trying to solve”

Delivering Improved Warfighting Capability



Joint Innovation & Experimentation
JCIDS
CJCSI 3170 – "….identifying, assessing and prioritizing joint military capability needs as specified in title 10…"
JOPSC
CJCSI 3010 – "… provides guidance for joint concept development and synchronizes the efforts of the joint concept community in the DoD capabilities-based approach to transformation."
